

# Weekly Weather Briefing

**Monday, March 25, 2019**

*Issued Every Monday and Friday*

Weather Forecast Office  
**Wilmington, NC**

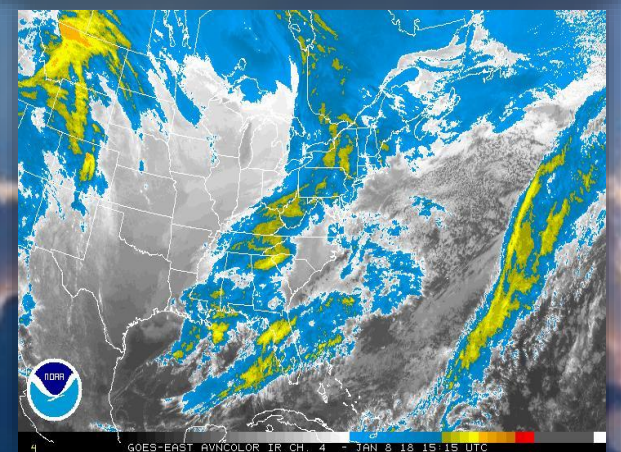

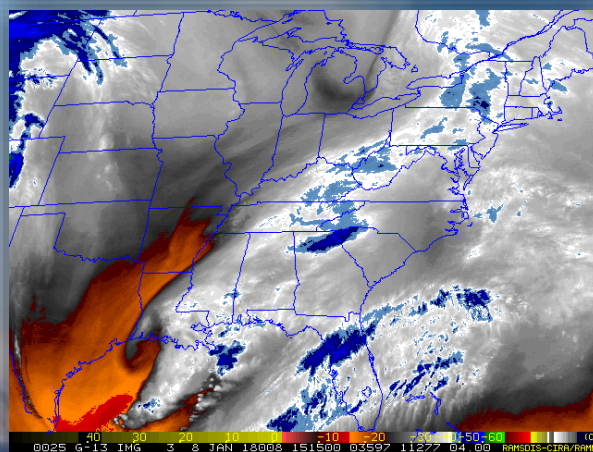

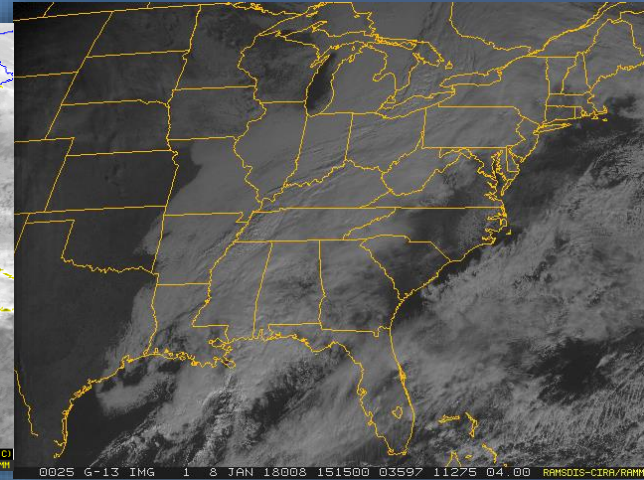

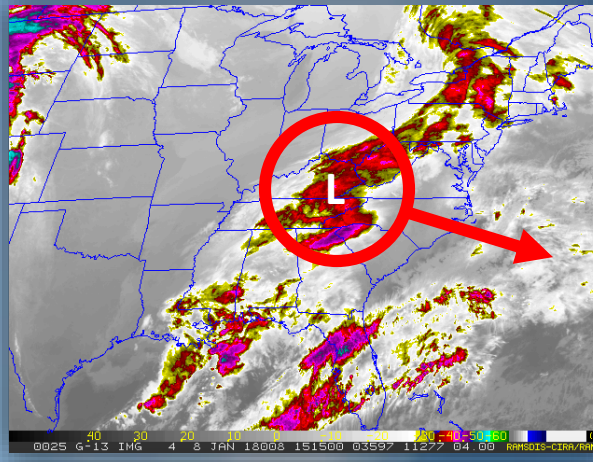

**Disclaimer:** *The Information Contained within this Briefing is Time Sensitive, and Could Affect its Validity as the Date/Time Moves Away from the Briefing Creation Date/Time.*

## Highlights

- Cold front moving through the area this evening will likely bring showers and a couple rumbles of thunder.
- Much cooler and drier air moves in behind the front.
- Frost and/or Freeze possible Thursday and Friday morning.
- **Gale Watch in effect** for the near-shore waters Tuesday afternoon through Wednesday morning.

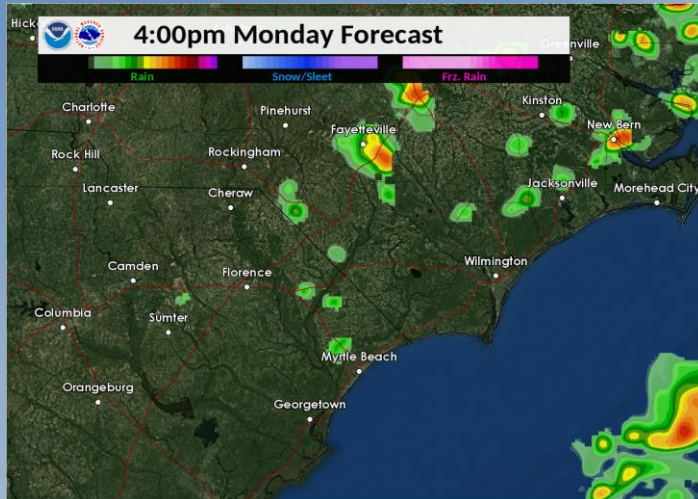

## Satellite Imagery

Low pressure currently over eastern KY to bring a chance of rain to the area this evening.

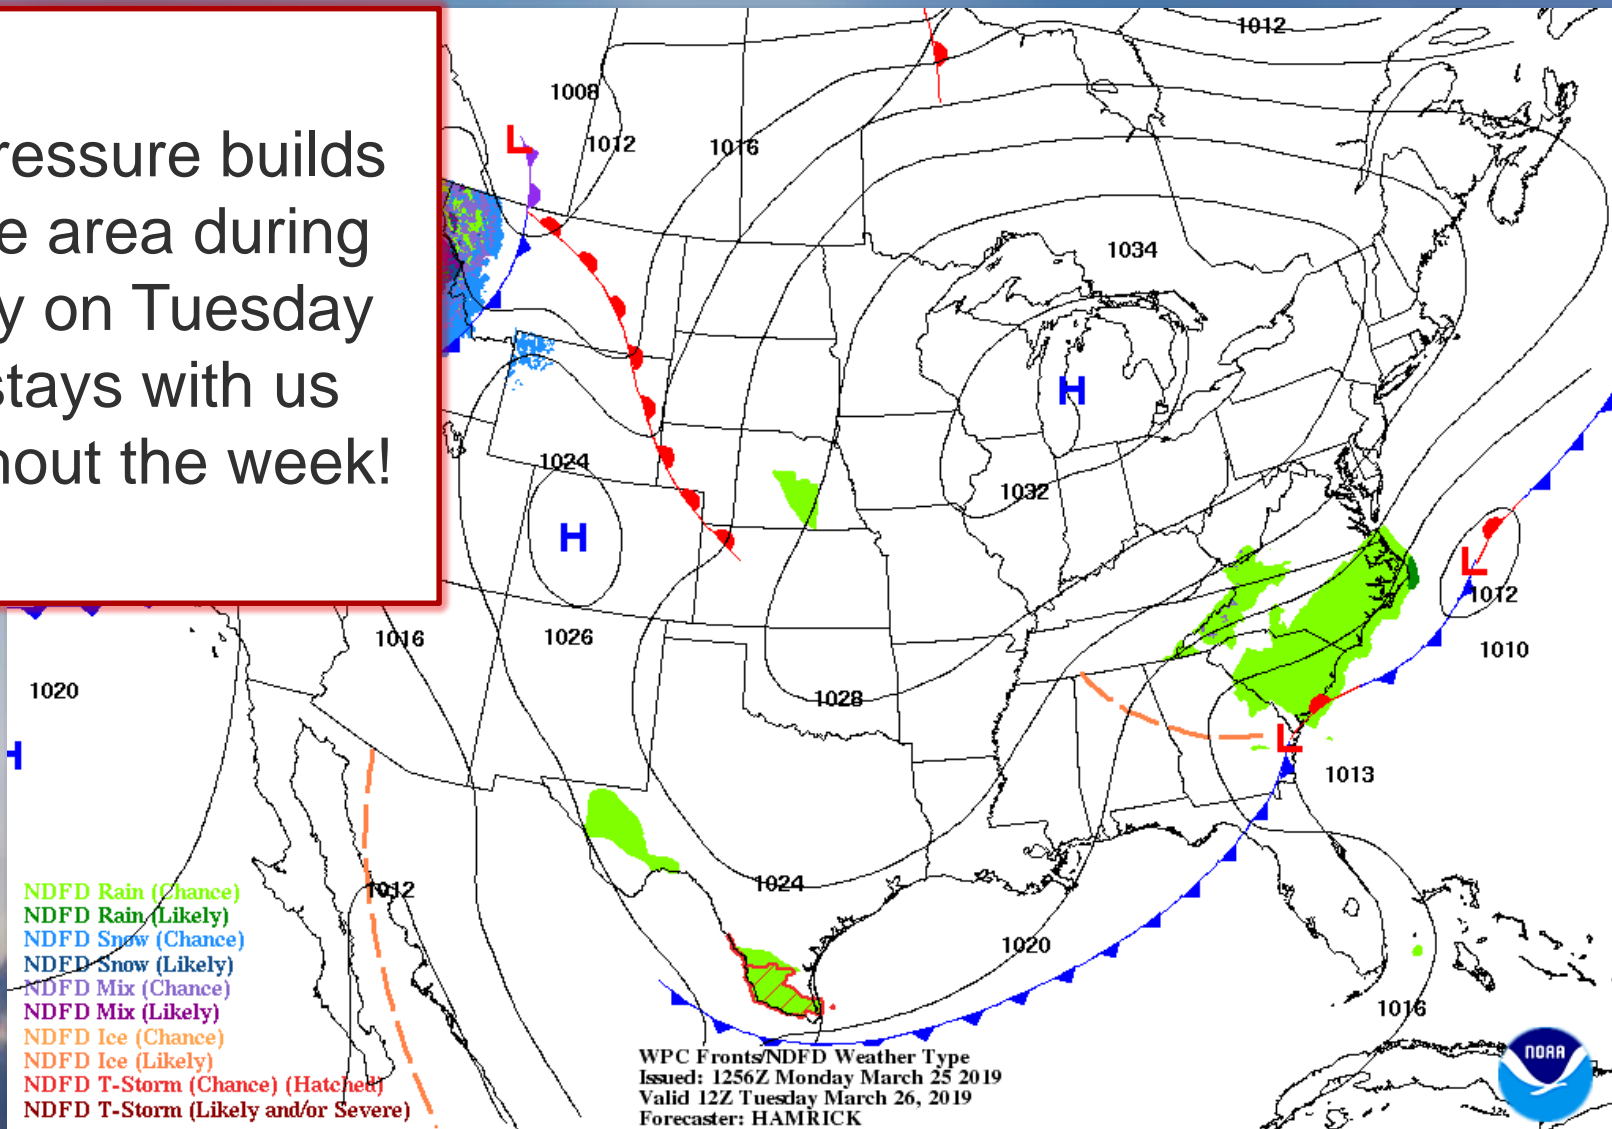

# Showers and Storms Possible on Monday

**No severe weather expected!**

## Tuesday Morning

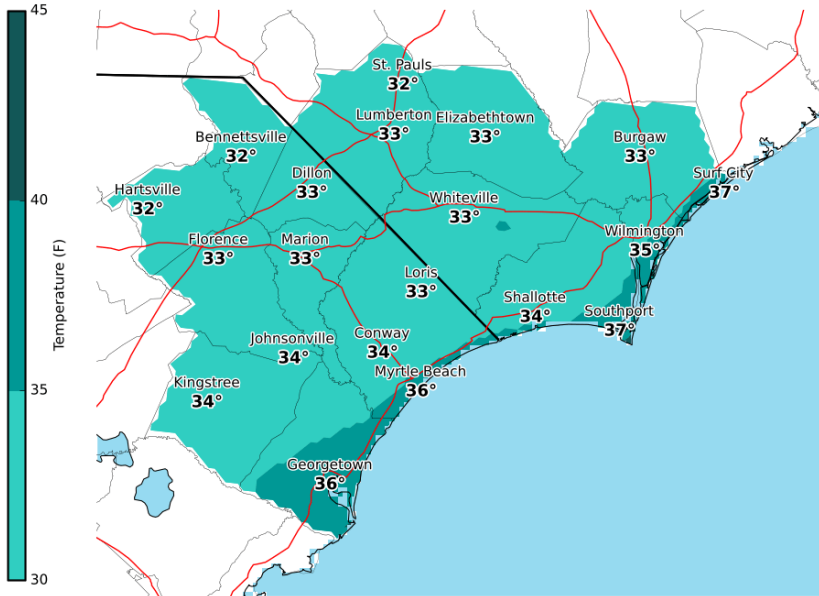

High pressure builds into the area during the day on Tuesday and stays with us throughout the week!

# Late-Week Frost Possible

**Thursday**

**Morning Lows**  
Valid: March 27, 2019

Thursday shows the most potential for some patchy frost, but winds may mitigate the threat.

## Marine Highlights

- Showers and storms tonight into Tuesday with increasing winds.
- **Gale watch** for the near-shore waters Tuesday evening into Wednesday morning.
- Strong winds will continue through Thursday evening.

## Aviation Highlights

- MVFR/IFR tonight through Tuesday morning associated with a passing cold front.
- VFR with cooler and drier air through the remainder of the week.

## Fire Weather Highlights

- Dry weather with minimum RH around 30-40% each day behind a cold front bringing a cooler and much drier air mass tonight.
