

SPACE NEEDS ASSESSMENT QUESTIONNAIRE FOR PENDER COUNTY SHERIFF'S OFFICE PROGRAMMING

Your responses to this questionnaire will be very helpful to the Moseley Architects space planning team in understanding the space needs of your department. After you have completed the questionnaire, our team will meet with you in person to discuss your responses and other issues in more detail. The time you spend responding to these questions is extremely valuable in "jump starting" that face to face discussion by providing you a means of focusing on some of the relevant issues prior to our meeting. This will make the meeting efficient and productive. This document will assist the planning team to develop the necessary administrative and supporting "core" needs of the detention center going forward.

Please answer every applicable question and respond to the questions as accurately and thoughtfully as you can. The quality of your input will directly affect the effectiveness of the space needs assessment results. If your department is a large one that is subdivided into divisions or separate units that focus on different responsibilities, please complete a **separate** questionnaire for each division, with responses that address only that division. Feel free to attach additional sheets to the questionnaire if needed.

Your time and effort are appreciated, and we look forward to meeting with you.

1. Briefly describe the general scope of your department/division's services and functions, including any special policies or procedures that impact your functional and space needs. What are the primary operational goals and objectives of your department/division?

Services and functions:

<u>Patrol</u>: Provide law enforcement presence throughout Pender County. Have the required number of deputies to cover 870 square miles while responding to calls for service (Domestics, Alarms, Assaults, Robberies, Warrants Service, Involuntary commitments, Traffic Related Calls, etc.). Also, to be able to maintain order and keep our citizens safe.

Support Division (Civil/Courts/School Resource)

(SRO's) Provide law enforcement presents for each school campus within the county. (Court security) Provide safety and security for the employees of the courts as well as citizens attending court. (Bailiff) Provide security for the employees and citizens within the court rooms. Maintain efficiency of the workflow of the court room. Transport inmates from the jail to the court. (Civil Process) Service of civil process papers and preform executions, as well as many other statutory requirements within civil process. (Records) Keeping court related documents that are maintained permanently. (Division Captain) Responsible for public information, special operations, training coordinator, oversight of all support division operations.

Investigations:

The investigations division investigates reported crimes, interviews potential victims and suspects, collects, process and stores evidence. We also have item we keep for safekeeping and domestic property. We also handle all records of the sheriff's office.

911Center:

911 receives and dispatches all emergency and non-emergency phone calls for the County. Dispatches Laws/EMS/Fire countywide. The Center must always be secure from the general public.

Animal Control:

Investigate all animal complaints and none domesticated animals.

Operational goals and objectives:

Patrol:

The main goal of the patrol division is to maintain the safety and security of the people and property of Pender County as well as all that pass through it. Patrol division answers calls for service, serves civil process, criminal process, as well as transports of commitment patients and arrestees.

Support Division (Civil/Courts/School Resource):

Maintain the safety and security of the schools, court houses, and comply with statutory provisions for civil process.

Investigations:

To investigate all crimes, storage of evidence and maintaining records. We wish to expand in the coming years to handle the growing population in our county.

911Center:

Acquire a more up to date Center, with more room and windows.

Animal Control:

Rabies control

2. What changes do you anticipate in your department/division's services or functions in the next five years, and why?

Patrol and Support Division (Civil/Courts/School Resource):

Changes anticipated: Rapid expansion within the division to keep up with the growth of the citizens living in and traveling through the borders of Pender County.

Investigations:

Not many changes but more room is a necessity for our evidence. We are almost at full compacity and running out of room. With more personnel we have also ran out of office space. As caseloads increase, we will need more personnel and room to accommodate.

911 Center:

Increase in personnel, more storage.

Animal control:

Growth

Why?

Patrol and Support Division (Civil/Courts/School Resource):

Attention to the recent commissioners' meetings will show plans for future growth for residential communities that will increase population rapidly thereby increasing workload for the Sheriff's Office to include the number of deputies needed on a shift answering calls to keep employee injury at a minimum. This also should reduce the amount of use of force reports.

Investigations:

The growing population in our county will bring more crimes to investigate which and will need more personnel. Pender County is located between two large growing cities, Wilmington and Jacksonville many people are moving to our communities.

911 Center:

Due to the continuing growth of the County, call volumes are steadily increasing.

(New Businesses and housing developments)

Storage area for files, files are increasing daily.

Animal control:

County population is growing

1. Briefly describe the general scope of your department/division's services and functions, including any special policies or procedures that impact your functional and space needs. What are the primary operational goals and objectives of your department/division?

Services and functions:

• The Department of Information Technology Services (ITS) provides technology leadership, governance, infrastructure and architecture, technical resources, and expertise in the development and deployment of modern information technologies to improve government efficiency, effectiveness, and promote innovation. ITS is responsible for implementing and managing systems, applications, communications, and the overall management and security of the County's IT assets. ITS is further charged as the steward of County information systems and data. Agencies are responsible to adhere to IT policies, standards, and coordinate their requirements with ITS.

Operational goals and objectives:

• ITS goals promote innovation, support County services, energize overall technology investments' performance, develop and maintain information technology systems, and provide secure, agile and sustainable technology infrastructure and customer service support to County agencies. ITS's IT infrastructure and portfolio includes consideration of 'cloud' and other hosted capabilities that make sense for Pender County based on the architecture, cost, and risk implications.

The organizational structure of ITS has evolved over the years to align with changing priorities, trends, requirements, and leverages technology platforms and resources. It addresses the evolution and utilization of technology in support of County government business functions. This evolution has seen a tremendous growth in web-based capabilities such as Social and Digital Media, 'cloud' architectures, green IT, mobile apps, and wireless 'smart' devices, as well as platforms that support cross agencies and enterprise class solutions and software applications.

SPACE NEEDS ASSESSMENT QUESTIONNAIRE FOR PENDER COUNTY MAGISTRATE OFFICE PROGRAMMING

Your responses to this questionnaire will be very helpful to the Moseley Architects space planning team in understanding the space needs of your department. After you have completed the questionnaire, our team will meet with you in person to discuss your responses and other issues in more detail. The time you spend responding to these questions is extremely valuable in "jump starting" that face to face discussion by providing you a means of focusing on some of the relevant issues prior to our meeting. This will make the meeting efficient and productive. This document will assist the planning team to develop the necessary administrative and supporting "core" needs of the detention center going forward.

Please answer every applicable question and respond to the questions as accurately and thoughtfully as you can. The quality of your input will directly affect the effectiveness of the space needs assessment results. If your department is a large one that is subdivided into divisions or separate units that focus on different responsibilities, please complete a **separate** questionnaire for each division, with responses that address only that division. Feel free to attach additional sheets to the questionnaire if needed.

Your time and effort are appreciated, and we look forward to meeting with you.

SPACE NEEDS ASSESSMENT QUESTIONNAIRE FOR PENDER COUNTY SHERIFF'S OFFICE PROGRAMMING

Your responses to this questionnaire will be very helpful to the Moseley Architects space planning team in understanding the space needs of your department. After you have completed the questionnaire, our team will meet with you in person to discuss your responses and other issues in more detail. The time you spend responding to these questions is extremely valuable in "jump starting" that face to face discussion by providing you a means of focusing on some of the relevant issues prior to our meeting. This will make the meeting efficient and productive. This document will assist the planning team to develop the necessary administrative and supporting "core" needs of the detention center going forward.

Please answer every applicable question and respond to the questions as accurately and thoughtfully as you can. The quality of your input will directly affect the effectiveness of the space needs assessment results. If your department is a large one that is subdivided into divisions or separate units that focus on different responsibilities, please complete a **separate** questionnaire for each division, with responses that address only that division. Feel free to attach additional sheets to the questionnaire if needed.

Your time and effort is appreciated, and we look forward to meeting with you.

Your Name: Lt. H. V. Blake Jr.

Your Department: Pender County Sheriff's Office

Your Division within the Department (if applicable): <u>Support Division (Civil/Courts/School Resource)</u>

Your Telephone Number: 910 789 4885

Your email address: Harold.blake@pendersheriff.com

1. Briefly describe the general scope of your department/division's services and functions, including any special policies or procedures that impact your functional and space needs. What are the primary operational goals and objectives of your department/division?

Services and functions: (SRO's) Provide law enforcement presents for each school campus within the county. (Court security) Provide safety and security for the employees of the courts as well as citizens attending court. (Bailiff) Provide security for the employees and citizens within the court rooms. Maintain efficiency of the workflow of the court room. Transport inmates from the jail to the court. (Civil Process) Service of civil process papers and preform executions, as well as many other statutory requirements within civil process. (Records) Keeping court related documents that are maintained permanently. (Division Captain) Responsible for public information, special operations, training coordinator, oversight of all support division operations.

Operational goals and objectives: Maintain the safety and security of the schools, court houses, and comply with statutory provisions for civil process.

2. What changes do you anticipate in your department/division's services or functions in the next five years, and why?

Changes anticipated: Rapid expansion within the division to keep up with the growth of the citizens living in and traveling through the borders of Pender County.

Why? Attention to the recent commissioners meetings will show plans for future growth for residential communities that will increase population rapidly thereby increasing work load for the Sheriff's Office.

3. Please list the job title of each type of position currently authorized for your department, or division within the department if applicable. Adjacent to each job title, indicate how many such positions are currently authorized. This tells us what your current staff breakdown is or should be. Then, to the best of your ability, indicate the total number of authorized positions you think there will be for each job title in five years. Base your estimate on the degree to which you believe the amount and nature of your services and workload will change or stay the same. Then indicate with an X which type of workspace is required for each position. Examples of the intended response format are shown in the yellow highlighted cells below.
